

Kaboom

A cheap and easy game you can make yourselves is 'Kaboom':

You will need about 15 plain lolly sticks. On one end of all of the sticks colour a small portion on both sides. On two of the sticks write the word 'Kaboom'. On the other sticks you can write phonic sounds, keywords, times tables, numbers etc.

Put the sticks in a pot, coloured side up. Take it in turns to take a stick, if you can answer correctly you can keep the stick, if not return it to the pot. If you take a 'Kaboom' stick you have to return all your sticks to the pot. It is a good idea to decide on a time limit (say 2 minutes) and the winner is whoever has the most sticks at the end.
